

OVERSEAS ACTIVITY

The beginning of Riken's full-scale expansion overseas can be traced back to the establishment of Taiwan Riken Ind. Co., Ltd. in 1968. Starting with the production and manufacture of piston rings through joint ventures with local business conglomerates, we have built production bases in countries including Korea and Thailand through joint ventures that use local capital. In line with expansion in Asia, we established wholly owned subsidiaries in the United States and Germany in the 1970s to address heightened interest in our products in Europe and North America, and began supplying automakers in various countries. Furthermore, we founded Allied Ring Corporation in the 1980s as a joint-venture company in response to local procurement by Japanese automakers, and to supply steel piston rings to the "Big Three" automakers. We are broadening technological tie-ups for piston rings in South America and studying the feasibility of establishing production bases in Europe.

Riken is also involved in fields beyond piston rings. In Indonesia, we manufacture high-grade cast-iron products through the joint venture company P.T. Pakarti Riken Indonesia, and engage in technological transfer of such products as knuckles and camshafts with local companies in Europe and North America. Riken currently has 10 subsidiaries and affiliates, excluding holding companies, and has established partnerships with five companies in capital and technological tie-ups. In addition to piston rings, Riken also provides a variety of products and technologies for automobile parts and piping equipment through its global network.

1 TAIWAN RIKEN IND. CO., LTD.

41, Chen-Tai Road Sec. 3, Wu-Ku Hsiang,
Taipei Hsien, Taiwan
